

Sirs: I wish to give voice to the fact that K-Love (FM 91.1) has been a wonderful station serving our community with positive, encouraging and uplifting broadcasting. I never have to worry that anything offensive (off-color language) will be used by the commentators or announcers which makes it a safe environment for my granddaughter and others who either ride in the car with me or visit my home. I enjoy the programming very much on K-LOVE which offers a variety of styles of music with a great message of hope. Without this station there would not be much else to choose from which has the same impact for good. I believe its more contemporary bent has a wide range of appeal to both the young and the more mature audiences.

It is apparent that we need all the help we can get to maintain a positive attitude in the stresses we all face. All one has to do is read the newspaper or listen to the news to see that people are hurting the world over. K-LOVE has been one source of reenforcement and encouragement and has been a motivator to me to "keep on keeping on". Therefore, I believe that the service K-LOVE provides would be in the public interest.
